

Zakynthos
Turtles

zakynthosturtles.org

Show us the turtle, Learn the story!

Send us the photos/videos of the sea turtles you saw in Zakynthos. We will identify them and share their fascinating stories with you for free! We have a photo-database of more than 1600 individuals and a unique knowledge of their underwater world!

University of London

How it works:

- 01.** Go to zakynthosturtles.org and send us the photos/videos of the turtles you spotted in Zakynthos, ideally showing the side of the head. Their patterns are unique like a human fingerprint!

- 02.** If we successfully identify your turtle, we will share with you its story:

For how long we know this turtle!
Fascinating facts about it!
Its behavior, habits and any threats it has faced.

Our vision is that by perceiving the sea turtles as unique individuals more and more people will actively engage with responsible sea turtle viewing and environmental conservation. Always remember to give space to the animal, avoid congestion and respect the 6 knot speed limit within Laganas Bay. Visit our website for more information!

- 03.** Find us
